Professional Experience

Accenture
Software Engineer – CIO Collaboration Team

Metro Manila, PH
Apr 2021 – Mar 2022

- Maintained and enhanced existing internal web applications.
- Created an ETL service that interacts with Microsoft Yammer export API and that helped to link Yammer's data with Accenture employees' data.
- Created POCs that help the team solve problems effectively.
- Wrote unit tests including code coverage reports.

mClinica
Associate Full Stack Developer – Patient Assistance Program Team

Taguig City, PH
May 2019 – Jan 2021

- Developed and maintained API, which enable pharmaceutical companies to run discounts or free goods programs, using Node.js and Express.js.
- Developed and maintained dashboard web applications, which enable pharmaceutical companies to have insights into product sales as well as health practitioner and patient behavior using React.js.
- Collaborated with the engineering team to design, develop and launch new features.
- Wrote integration tests, including code coverage reports that reached 90%+ of code coverage.
- Created database schema and including query optimizations using MySQL.

mClinica
Software Engineering Intern

Taguig City, PH
Dec 2018 – Mar 2019

- Introduction to React.js/Node.js stack.
- Worked closely with QA Engineers to translate manual testing to automation testing.
